Dear Head of Council,

I am pleased to announce that the government introduced Bill 68 – the proposed *Modernizing Ontario's Municipal Legislation Act, 2016* in the Legislature on November 16, 2016.

The proposed *Modernizing Ontario's Municipal Legislation Act, 2016* is the result of the review of three key elements of Ontario's municipal legislative framework: the *Municipal Act, 2001*, *City of Toronto Act, 2006* and the *Municipal Conflict of Interest Act*. This package of amendments reflects my position that Ontario already has a strong legislative framework governing municipalities, and overall our legislation is working well.

The Bill includes proposed changes to help ensure our local governments remain accountable and have the flexibility to respond to the people they serve. If passed, these changes would benefit local governments and residents by:

- Increasing fairness and reducing barriers for women and parents elected to municipal governments by allowing time off for pregnancy or parental leave
- Empowering municipalities to address climate change in their communities through by-laws related to green construction in certain circumstances
- Broadening municipal investment powers, which may help better finance repairs and replacements of local infrastructure
- Improving access to justice for the public and for municipal councillors by allowing integrity commissioners to investigate complaints'
- Requiring municipalities to have a code of conduct for members of municipal councils and local boards

For a copy of Bill 68 – the proposed *Modernizing Ontario's Municipal Legislation Act, 2016* and to monitor the status of the Bill through the legislative process, please visit the Legislative Assembly of Ontario website: www.ontla.on.ca.

Madame la présidente du conseil,
Monsieur le président du conseil,

J'ai le plaisir de vous informer que le 16 novembre 2016, le gouvernement a déposé à l'Assemblée législative le projet de loi 68, autrement dit, la *Loi de 2016 sur la modernisation de la législation municipale ontarienne* proposée.

La *Loi de 2016 sur la modernisation de la législation municipale ontarienne* proposée est le fruit de l'examen de trois éléments clés du cadre législatif régissant les municipalités en Ontario, à savoir la *Loi de 2001 sur les municipalités*, la *Loi de 2006 sur la cité de Toronto* et la *Loi sur les conflits d'intérêts municipaux*. Les modifications qu'elle propose reflètent ma position que l'Ontario dispose déjà d'un robuste cadre législatif régissant ses municipalités et que celui-ci fonctionne bien dans l'ensemble.

Le projet de loi propose une série de modifications dont le but est d'aider à faire en sorte que nos administrations locales demeurent responsables et qu'elles aient la souplesse nécessaire pour pouvoir répondre aux besoins des populations qu'elles servent. Si elles étaient adoptées, les modifications proposées auraient une incidence positive sur les municipalités et leurs résidents. Les voici :

- Accroître l'équité et réduire les obstacles auxquels se heurtent les femmes et les parents élus à un conseil municipal en leur accordant le droit à des congés de maternité ou des congés parentaux.
- Donner le pouvoir aux municipalités de contrer le changement climatique au sein de leurs collectivités par l'entremise de règlements municipaux appelant dans certaines circonstances le respect de normes de construction écologiques.
- Élargir les pouvoirs d'investissement des municipalités, ce qui pourrait les aider à mieux financer la remise en état et le remplacement d'infrastructures locales.
- Améliorer l'accès à la justice pour les membres du public et des conseils municipaux en autorisant les commissaires à l'intégrité à enquêter sur des plaintes.
- Exiger des municipalités l'adoption de codes de conduite pour les membres des conseils municipaux et des conseils locaux.

Pour obtenir une copie du projet de loi 68 – la *Loi de 2016 sur la modernisation de la législation municipale ontarienne* proposée et pour suivre son cheminement à l'Assemblée législative de l'Ontario, veuillez vous rendre sur le site Web de celle-ci, au : <http://www.ontla.on.ca/web/home.do?locale=fr>.

Si vous avez des questions, n'hésitez pas à nous les soumettre en écrivant à l'adresse municipalreview@ontario.ca. Vous pouvez aussi vous mettre en rapport avec le Bureau des services aux municipalités de votre région :

Subject: AMO Policy Update: Bill 151 - The Waste-Free Ontario Act
Date: Wednesday, November 30, 2016 3:53:17 PM

November 30, 2016

The Province Proclaims Bill 151 - *The Waste-Free Ontario Act* – and Moves Toward Full Producer Responsibility

Today the provincial government proclaimed Bill 151, *The Waste-Free Ontario Act* (WFOA). This Act creates a new legislative framework for waste management in the Province and will transition the existing diversion programs under the *Waste Diversion Act* (WDA) including the Blue Box, Municipal Hazardous and Special Waste, Waste Electrical and Electronic Equipment and Tires to the new framework. The Act is focused on creating a circular economy strategy through supporting Provincial Policy Statements and the development of an organic strategy.

We are transitioning from the municipally-run and co-funded Blue Box program toward an Extended Producer Responsibility (EPR) regime that requires producers to cover all end-of-life costs for waste. The municipal role in this system will be evolving. Eventually, producers will be fully responsible for meeting target recovery rates for designated products and packaging.

Until we know significant post-transition issues such as level of diversion rates, geographic requirements and what materials will be designated, our municipal programs will continue to run so that our communities receive a convenient, reliable waste services that residents depend on. Although it is too early for councils make informed decisions, municipal governments may be approached by producers to provide post-transition collection and/or processing services for designated materials.

The WFOA is based on open competition and free markets instead of the previous industry monopolies. The government has voiced a commitment to ensuring competition at the producer level throughout the market. We fully support and need competition in the system.

One of the biggest municipal risks is that this transition period could be drawn out — or worse, become the new normal. Municipal governments remain responsible for the majority of the waste management system until the transition is complete.

Therefore, AMO will continue to work with our members, the government, the new Resource Productivity and Recovery Authority, Producers, Waste Management Service Providers and other interested stakeholders to ensure that the transition period is as efficient as possible, and maintains the same level of quality that residents come to expect with the Blue Box program.

In addition to working with key stakeholders, AMO is planning a one-day session for municipal elected officials to discuss the transition to the WFOA and the municipal challenges and opportunities. Mark your calendars for February 8, 2017 (location TBD). Admission will be free with participation by teleconference and web also available. More information about this session will be posted shortly on our website at www.amo.on.ca.

AMO Report to Member Municipalities Highlights of the November 2016 Board Meeting

To keep members informed, AMO provides updates on important issues considered at regular AMO Board of Directors' meetings.

Highlights of the November 25, 2016 meeting include:

Long Term Energy Plan (LTEP) Review

Municipal governments look to a LTEP that enables and supports local and collaborative activities within the context of province wide goals and needs. Energy costs need to be reasonable for municipal governments and residents. Each municipality will have different drivers and opportunities to participate in generation, storage, and distribution of all forms of energy. AMO is looking for an energy plan that encourages cost effective small scale projects and technology that build local capacity. AMO will continue to work with the Ministry as the plan takes shape and is implemented. AMO's Energy Task Force will meet soon to develop ideas on how the Premier can reduce electricity costs in a manner that is more substantive and sustainable. Most LDCs rates are less than Hydro One rates.

AMO Contact: Cathie Brown, Senior Advisor, E-mail: cathiebrown@amo.on.ca, (416) 971-9856 ext. 342.

Expanding Medical Responses

The AMO Board approved a strong response in opposition to the recent Ministry of Health and Long-Term Care (MOHLTC) proposal on Expanding Medical Responses through Fire Services. AMO, with assistance from the Emergency Services Steering Committee, the Ontario Association of Paramedic Chiefs and the Ontario Association of Fire Chiefs, will prepare a response that focuses on the evidence, or lack thereof, that this contentious proposal purports to offer. In addition, it is expected that CUPE and OPSEU will be taking a strong position against the proposal.

AMO Contact: Monika Turner, Director of Policy, E-mail: mturner@amo.on.ca, (416) 971-9856 ext. 318.

OMB Review

The AMO Board is encouraging the Province to amend the legislation to limit the ability to appeal amendments of planning documents that implement provincial interests. The Board already has authority to not practice 'hearing de novo' which has chosen not to use, so it should be compelled. If there is new evidence at the Board it must be obligated to send it back to Councils for consideration. AMO agrees that alternative dispute resolution should be better used. Administrative practices, transparency and accountability can be vastly improved. The full AMO submission will be available on the website shortly. It is clear that the Province must make more substantive changes with demonstrable outcomes. AMO will continue to advocate on this issue.

AMO Contact: Cathie Brown, Senior Advisor, E-mail: cathiebrown@amo.on.ca, (416) 971-9856 ext. 342.

Update on Bill 59, *Putting Consumers First Act*

The Bill, if passed, would enhance consumer protection measures by introducing new rules for home inspections, door-to-door sales, and payday loans. It amends the *Municipal Act* to include new municipal authority to enact bylaws that would control where payday loan establishments are sited and the number of operations that are permitted. The Board directed staff to make a Standing Committee submission. It needs to be emphasized that any province-wide ban on products that are sold door-to-door must be enforced by the Province.

AMO Contact: Jessica Schmidt, Policy Advisor, E-mail: jschmidt@amo.on.ca, (416) 971-9856 ext. 367.

Bill 39, *Aggregates Act*

The AMO Board supports the Bill 39 approach and the changes to the fines regime, the additional new studies, and harmonizing expectations. It provides a permissive framework to enact the "Blueprint" released last year. The Bill is mainly a framework that relies on regulations. AMO will work with MNRF as they craft regulations to implement the Bill, specifically regarding the fees and royalties methodologies.

AMO Contact: Cathie Brown, Senior Advisor, E-mail: cathiebrown@amo.on.ca, (416) 971-9856 ext. 342.

Wetlands Conservation Strategy

The Board discussed a draft Wetlands Conservation Strategy proposed by the Ministry of Natural Resources and Forestry (MNRF). The Board approved feedback based on comments developed by AMO's Conservation Authorities Task Force. The Board asked staff to keep them informed as the MNRF Strategy progresses, particularly in regard to the principle of 'no net loss'.

AMO Contact: Jessica Schmidt, Policy Advisor, E-mail: jschmidt@amo.on.ca, (416) 971-9856 ext. 367.

2017 AMO Strategic Objectives and Budget

The Board approved its 2017 Strategic Objectives and related budget. President Dollin will be sharing this information separately with members in the coming weeks.

AMO Contact: Pat Vanini, Executive Director, E-mail: pvanini@amo.on.ca, (416) 971-9856 ext. 316.

Bill 68, Municipal Legislation Amendments (*Municipal Act, Municipal Conflict of Interest Act*) The Association will be preparing a detailed review of the proposed legislative amendments for the Board's consideration in January as input to the 2nd Reading/Standing Committee process.

AMO Contact: Pat Vanini, Executive Director, E-mail: pvanini@amo.on.ca, (416) 971-9856 ext. 316.

MEPCO Board Update

The AMO Board was updated on the status of Bill C-26, introduced by the Federal Government to implement the proposed CPP enhancement and on MEPCO's considerations on integrating the CPP enhancement with the OMERS Plan. The MEPCO Board updated guidelines to assist in reviewing OMERS Plan changes and approved its 2017 Work Plan.

AMO Contact: Bruce McLeod, MEPCO Coordinator, E-mail: bmcLeod@amo.on.ca, (416) 971-9856 ext. 350.

PLEASE NOTE: AMO Breaking News will be broadcast to the member municipality's council, administrator, and clerk. Recipients of the AMO broadcasts are free to redistribute the AMO broadcasts to other municipal staff as required. We have decided to not add other staff to these broadcast lists in order to ensure accuracy and efficiency in the management of our various broadcast lists.

Municipalities Create Alliance to Actively Promote Connected and Autonomous Vehicle Testing and Integration within our Communities

OAKVILLE, Ontario, November 17, 2016 – Connected Vehicles (CVs) and Autonomous Vehicles (AVs) are coming much faster than originally estimated. Ontario was the first province in Canada to create a Regulation (Reg. 306/15) allowing AVs to be piloted on its roads. With this regulation in place, municipalities across Ontario must prepare for the imminent arrival of CVs and AVs. In an effort to have all jurisdictions work together, and to help facilitate this co-ordination, Ontario Good Roads Association (OGRA) has organized the Municipal Alliance for Connected and Autonomous Vehicles in Ontario (MACAVO), best pronounced “Muh-Kay-Vo”.

MACAVO is to bring forward-looking Ontario municipalities together to facilitate CV/AV research, testing and integration within their respective jurisdictions. This provides MACAVO members the opportunity to learn from each other and develop a synchronized set of logistics, policies, and communication channels to help the CV/AV industry move forward in Ontario, while integrating with municipal services.

The first official MACAVO meeting took place on August 9, 2016 and was attended by municipal transportation leaders from: City of Barrie; City of Brampton; Region of Durham; City of Elliot Lake; Town of Essex; City of Hamilton; Town of Lakeshore; York Region; and others. The City of Stratford has since joined MACAVO as well. Stratford is particularly an amazing inspiration for the MACAVO team because of the great work that the city has already done in welcoming various technologies. Several other Ontario municipalities have also expressed interest in joining in the near future.

“We openly invite all Ontario municipalities who are prepared to start researching, testing and integrating these technologies in some capacity, to join MACAVO”, said Thomas MacPherson, York Region Manager of Transportation Asset Management and Chair of MACAVO. “Efforts across the province need to be co-ordinated to maximize the long-term benefits that CVs and AVs can provide our communities. At MACAVO, we are ready to work with all CV and AV stakeholders, including: the automobile industry; young entrepreneurs; the education sector; and local, provincial, and federal governments.”

Robert Burlie, P. Eng. and President of OGRA said, “... It is estimated that 50% of all vehicles

on our roads will be fully autonomous in the next 15 years and assist all municipalities who are making substantial efforts to improve road safety and ease traffic congestion. This technology is improving so rapidly that there will certainly be other benefits to all our communities and municipalities in Ontario, and will allow our roadways to be completely transformed for better use by pedestrians, cyclists, public transit, vulnerable users and vehicles."

"Not many people are aware that OGRA played a pivotal role in assisting Ontario's municipalities in transitioning from horses to automobiles. We see a very similar shift in transportation taking place today, with the move toward connected and driverless automobiles" said Joe Tiernay, OGRA's Executive Director. "Only this time, the positive effects are expected to be even greater than before, and we want to make sure we are standing alongside our member municipalities, supporting them as they prepare for this historic transition"

MACAVO is hereby requesting the automobile industry, as well as all other CV/AV stakeholders to come forward to begin the collaboration process. In the coming months, MACAVO will set up a work-plan to help drive the team forward with achievable, short- and long- term goals and objectives for CVs and AVs.

07 November 2016

BE IT RESOLVED

WHEREAS: The Government of Ontario has introduced Bill 7, the Promoting Affordable Housing Act, 2016, an omnibus Bill that includes amendments to the Residential Tenancies Act, 2006 (RTA), and

WHEREAS: Schedule 5 of the Bill prescribes that local municipalities shall assume enforcement responsibility for residential rental maintenance standards (O. Reg. 517/06) under the RTA on July 1, 2018, and

WHEREAS: The Ministry of Housing currently enforces residential rental maintenance standards in municipalities that do not have a property standards by-law, or have a "partial" by-law that does not address the interior of rental buildings, and

WHEREAS: The Minister currently receives complaints from tenants respecting residential rental maintenance standards and appoints inspectors to provide this service to municipalities on an as needed basis, for a cost-effective set fee of \$265 for each inspection or re-inspection, and

WHEREAS: The download of enforcement responsibility will require each municipality to receive written complaints from tenants, cause an inspector to make an inspection to determine whether the provincial standards have been complied with, issue work orders to landlords who have not complied with a prescribed maintenance standard, monitor compliance, investigate allegations of failure to comply, and where circumstances warrant, to prosecute landlords for non-compliance, and

WHEREAS: The Government of Ontario intends to download these responsibilities with no compensatory funding, leaving municipalities that do not currently enforce residential rental maintenance standards with the significant fiscal challenge of providing this service cost-effectively,

THEREFORE BE IT RESOLVED

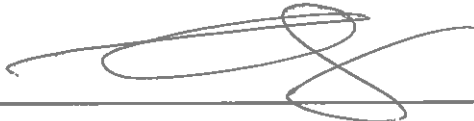

THAT the Council of the Township of Madawaska Valley calls on the Government of Ontario and the Ministry of Housing to halt the download of enforcement responsibility for residential

rental maintenance standards proposed in Schedule 5 of Bill 7, in light of the significant fiscal challenge each municipality will face to provide this service to the public in a cost-effective manner.

AND THAT a copy of this resolution be sent to the Honourable Kathleen Wynne, Premier of Ontario, the Honourable Chris Ballard, Minister of Housing, Mr. Patrick Brown, Leader of the Progressive Conservative Party, Ms. Andrea Horwath, Leader of the New Democratic Party, and all Members of Provincial Parliament in the Province of Ontario; and

THAT a copy of this resolution be sent to the Association of Municipalities of Ontario (AMO), the Rural Ontario Municipal Association (ROMA), the Federation of Northern Ontario Municipalities (FONOM), and to all Ontario municipalities for consideration.

Change of Name and Role for Muskoka Community Network

Advancing Innovation for Parry Sound and Muskoka

At the recent AGM, Muskoka Community Network (MCN) voted to change its name to Parry Sound Muskoka Community Network (PMCN) to reflect the wider scope of the organization. The organization will also be refining its role to advance **innovation** by supporting organizations to leverage new digital technologies.

MCN has spent the last decade supporting and providing some of the **innovation infrastructure** for our region with the investment in broadband towers to make it easier for remote areas to access the internet, and more recently with the Gigabit summit that triggered providers, including Lakeland Networks, to offer Gigabit speed to customers.

MCN took on the additional role of supporting and providing **innovation investments** including securing and administering three rounds of BEAM funding to help nearly 500 businesses upgrade their digital presence and grow their business, through e-business upgrades and website enhancements.

In recent years MCN has added a third dimension to include supporting Business **Innovation networks** by working closely with partners in the Muskoka Biz Series initiatives and providing Innovation Awards.

The PMCN Board will soon be exploring the potential of expanding into a fourth dimension of supporting and promoting **innovation hubs and neighbourhoods**.

The organization is also welcoming Stuart Morley as Executive Director. Stuart will provide important leadership as PMCN develops stronger relationships in Parry Sound District and implements its new focus on advancing innovation to businesses in the region.

The Chair of PMCN, John Finley, is delighted by Stuart's acceptance of the post after a nation-wide search. Mr. Finley said: 'It is a pleasure to welcome Stuart as the new Executive Director. We are fortunate to have found the talent locally. Stuart's experience with Morley & Associates Inc. providing consulting services to organizations throughout Muskoka and Parry Sound over the last two decades means that he will be able to hit the ground running because he is well known and respected in the community. Stuart will be able to help take the organization to the next level as he brings a new perspective and dynamism to work with the many businesses and organizations that are actively pursuing an innovation agenda in Parry Sound Muskoka.'

Following a degree in Agricultural Economics at the University of KwaZulu-Natal, Stuart graduated from the University of Cape Town with an MBA. He and his wife joined a big 4 accounting firm in South Africa and were transferred to Canada in 1986. A decade later the Morleys purchased their home near Gravenhurst and moved to Muskoka fulltime with their 3 children. Stuart has served on many community boards including Muskoka Family Focus and Children's Place, Community Living South Muskoka and as President of Gravenhurst Minor Hockey Club.

Stuart expressed his eager anticipation to take up the exciting and challenging position of Executive Director: 'I am very excited at the prospect of leading PMCN, as it continues to be one of the region's foremost organizations for innovation. I look forward to working with the business community and community partners to tackle the ambitious mandate the PMCN Board is exploring. As I have 3 grandchildren that are being raised in this community, I am excited to see what we put in place that can benefit our community over the coming decades.'

Marjorie MacDonald, the Acting Executive Director, will be supporting the transition. John Finley expressed the Board's appreciation of the work Marjorie has done in during this 2-year search for a new Executive Director.

Attention: Reeve Hopkins and Council

Re: Museum on Tower Hill

Dear Reeve Hopkins and Councillors,

We respectfully request the Township of McKellar consideration of a 2017 contribution to the Museum on Tower Hill in the amount of \$2,000.

Since late 2014 the Museum on Tower Hill has been working through a Re-Organization Project. The project, part of an international initiative known as Re-Org, has had a positive effect on the Collection.

Our storage room is now well organized and 75% of the collection has had their location entered into PastPerfect (collection database). This means that staff can locate 75% of over 6,500 objects in fewer than three minutes. Furthermore we have engaged the public to try and resolve issues with objects that have become separated from necessary documentation.

The Museum's innovative methods of communicating to public through an exhibit and a blog attracted the attention of other Museums on an international level. This fall, our Curator/Manager was asked to present at Re-Org workshop in Brussels and presented to over 200 museum professionals from across the world.

In the next couple of months you will receive the Museum's annual report outlining significant achievements of 2016. If you would like more information on the Re-Organization Project or a tour of our Collection room please contact Nadine Hammond.

Thank you for your consideration of our requests for funds in 2017.

Sincerely,

Glen Hodgson, Chair

Petition to Cancel Lakeside Crescent, Mckellar Boat Launch Investment

<p>Petition summary and background</p>	<p>With current boat launching infrastructure located at four (4) different points of interest on Lake Manitouwabing, including Tait's Landing, McKellar Marine, Glenwood Marina, and McKellar Centre (the latter of which is located a mere 5 km from the Lakeside Crescent public boat launch), there is no need to revamp the already sufficient boat launching infrastructure that currently exists on Lakeside Crescent. Additionally, all four aforementioned boat launches are situated within close proximity to local businesses which thrive on the increased amount of traffic that accompanies boat launching activities (Mckellar Store; Jimmy's Fry Shack etc). To expand the Lakeside Crescent public boat launch would mean drawing said traffic away from local businesses, and usage of existing well maintained infrastructure.</p> <p>The existing Lakeside Crescent public boat launch is also located in a residential neighborhood where citizens frequently walk, often with dogs, and local children ride bikes and wait for the school bus. Specifically, the current boat launch is situated at the end of a narrow gravel road with several sharp turns and numerous steep hills. To invest in additional boat launching infrastructure at the Lakeside Crescent public boat launch, would encourage increased vehicular traffic in the area which would pose a serious threat to the safety of pedestrians and pets.</p> <p>In lieu of the proposed Lakeside boat launch investment, perhaps the funds could be better utilized in Road Works, Transfer Station, Services and Activities for residents and other alike.</p>
<p>Action petitioned for</p>	<p>We, the undersigned, are concerned citizens who urge our Elected Officials to cancel plans to revamp and invest in additional boat launching infrastructure at the Lakeside Crescent public boat launch.</p>
